**Howard Dellar, Head of Education,
Ecclesiastical and Charity Law at
LBMW writes:**

Every year our team at LBMW sponsors a range of conferences, seminars, and consultations to support clients, schools, professionals and educational administrators in their work. In the fields of education and charity law, LBMW has a unique understanding of the development of legislation and regulations. Therefore we offer all who attend multiple opportunities to ensure their work is not only strongly founded but also strategically sound.

We also offer workshops for schools, either in London or regionally; reviews of Governance, and other aspects of Diocesan, Academy, or Local Authority structures; and a major free resource, 'Education Answers' which enables users to access a large amount of specialist papers and raise questions with answers given rapidly. I hope you will want to connect with our work, and all we offer; and I hope I may look forward to seeing you in 2018.
